Lean Startup Method and Agile for Initial Project Planning

Mike Pafford, Past Chesapeake Chapter President, will facilitate this Interactive Workshop in order to provide attendees with knowledge and practice in using a facilitated hybrid approach for Initial Project Planning (IPP). The approach uses best practices from the Lean Startup Method (LSM) and Agile (Systems Engineering, Software Engineering, and Project Management). The approach is employed by bringing together project planners at the decision-making level in one or more collaborative and facilitated, "IPP Meetup Workshops".

President's Point of View

Looking back: 2020-The Year-In-Review:Looking forward:....2021-things WILL get better!

Our 2020 INCOSE-CC president, Mark Evans, discusses the challenge of last year and the hope for the next. Despite an unprecedented year of

adversity, the Chesapeake Chapter persevered and rose to the challenge. Next year will only get better as we increase our dedication to serving the local Systems Engineering professionals

Volunteers Needed: Maryland FIRST LEGO League

Volunteers Needed

Team of volunteers needed to help with judging middle-school events

Great opportunity to share in experiences and inspire our young folks.

To greatly aid our chapter's efforts in promoting engineering education for youth, we are seeking interested people to help us partner with the FIRST LEGO League this spring. One of our chapter members is on the Maryland FIRST LEGO League Planning Committee and has asked if INCOSE could field a team of volunteers to help judge their middle-school events. The FIRST LEGO League is a great opportunity to share in experiences and inspire our young folks.
