

INCOSE Systems Engineering Professional (SEP) Program

Chesapeake Chapter Event

10 December 2021

2021 Accomplishments

- 500+ students qualified for Academic Equivalency.
- 100+ students got certified through Academic Equivalency.
- More candidates are now participating in online testing than previously used Prometric test centers.
- INCOSE CertBlog and SEPtember blog posts
- Many SEPs now earning PDUs through online and independent activities.

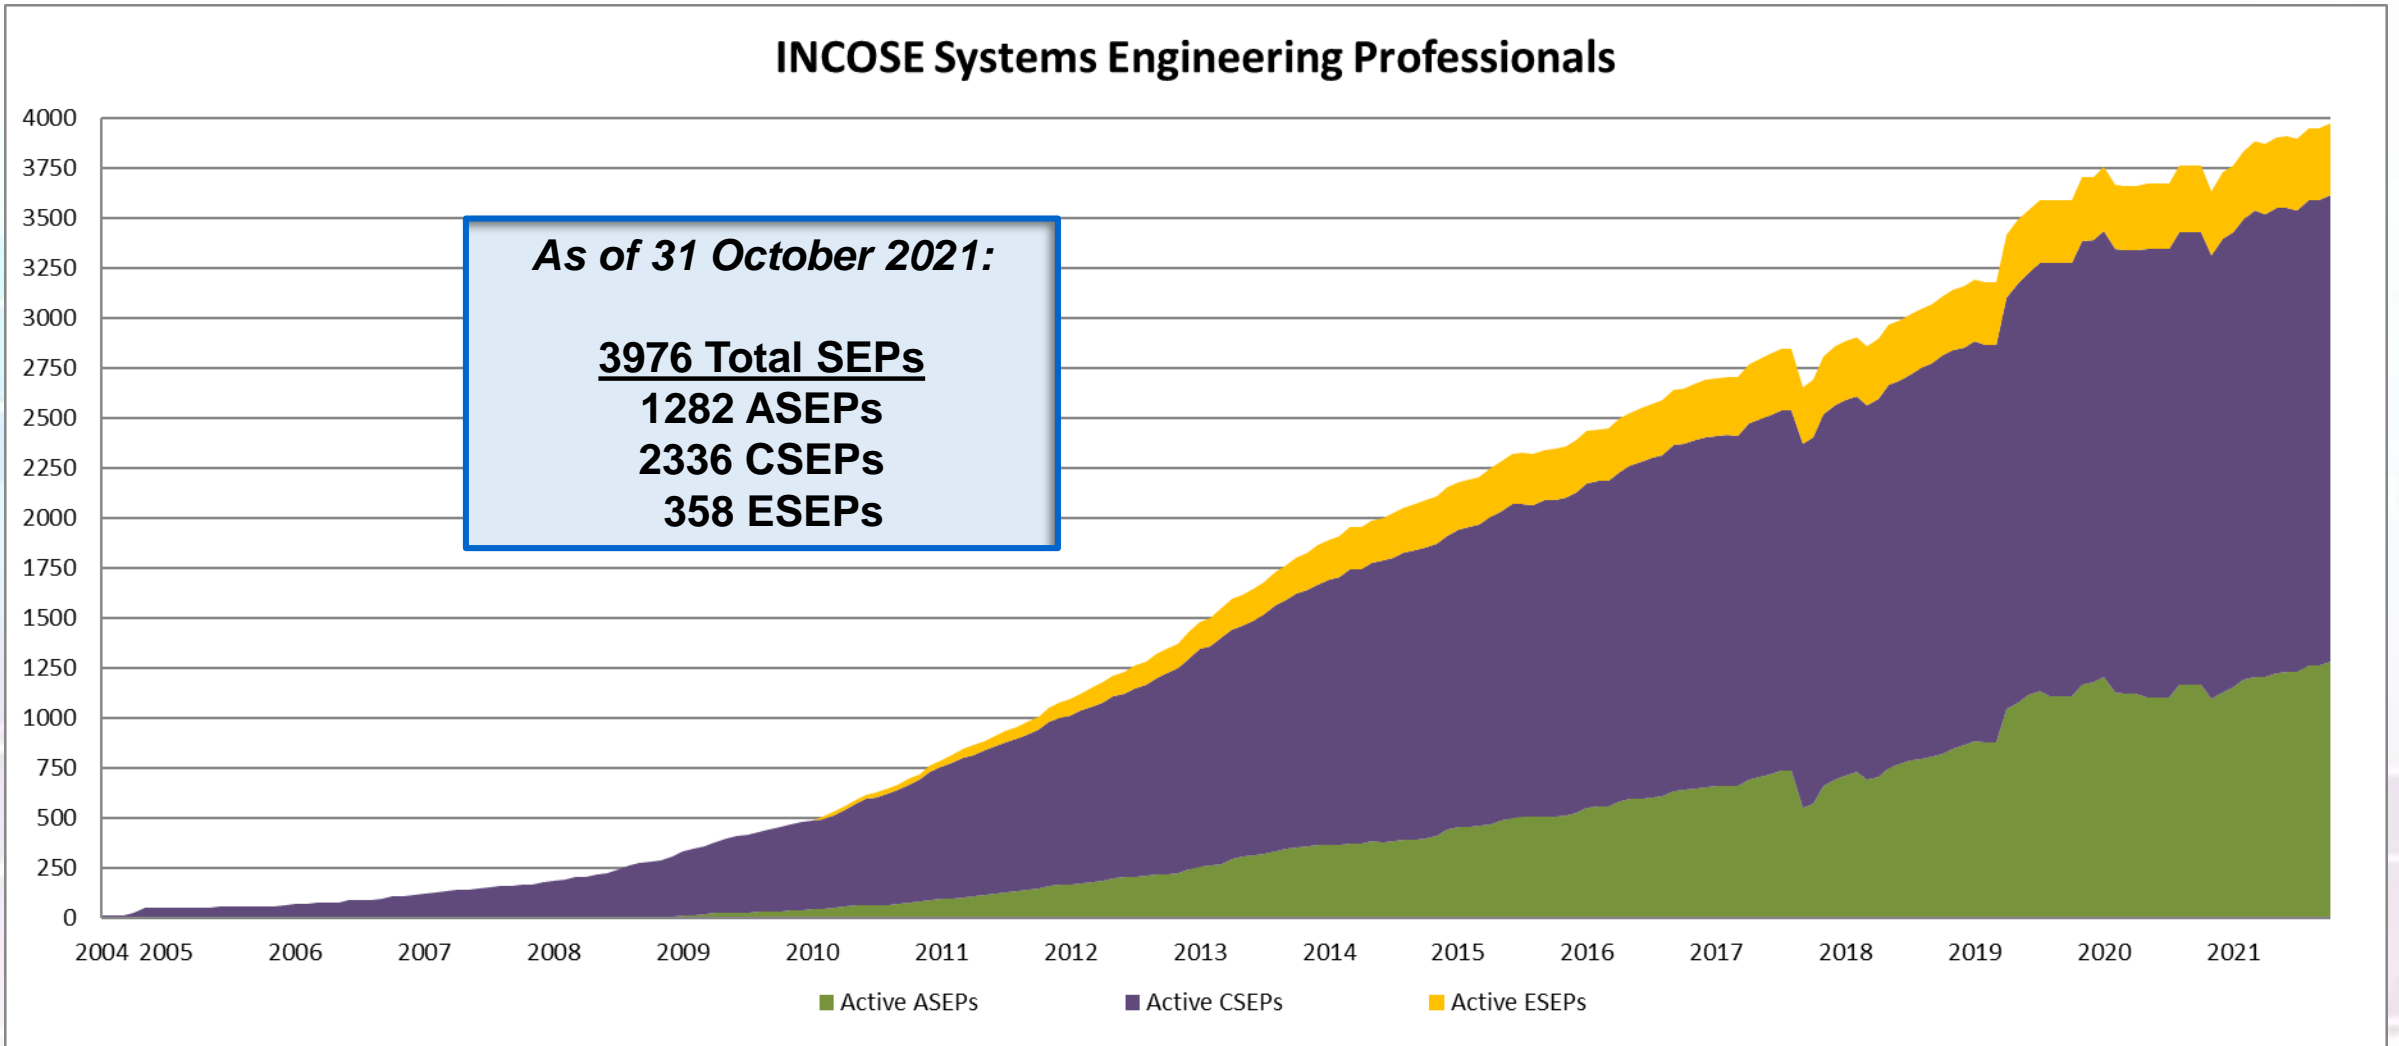

Maintain Your Certification

- Continuing Education
- STEM volunteering
- Chapter activities
 - Programs Committee - To arrange logistics for chapter meetings
 - Communications Committee - To help with web site, advertising, bulk mailings, newsletters
 - STEM Committee - To help with supporting STEM activities like science fairs and student scholarships
 - Membership Committee - Help with supporting student chapters at area schools.

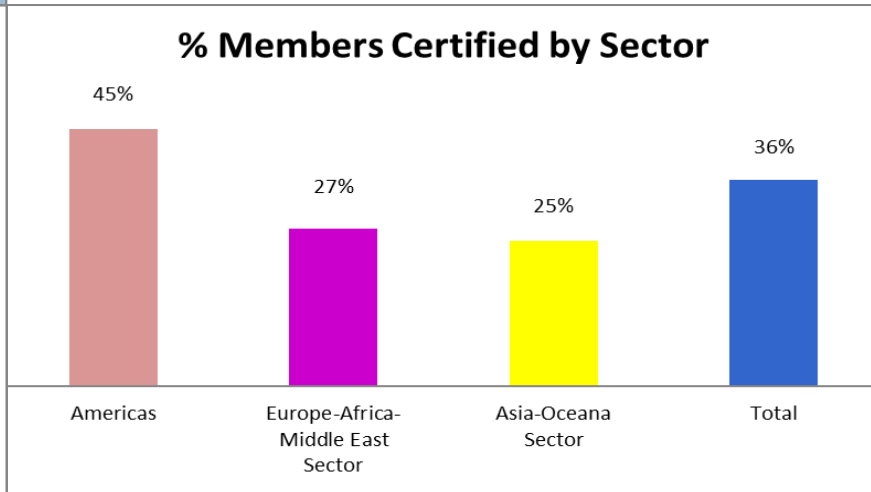

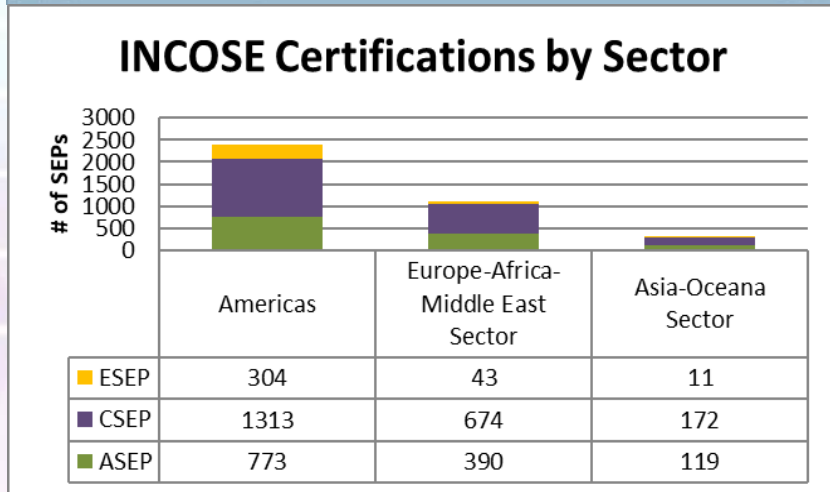

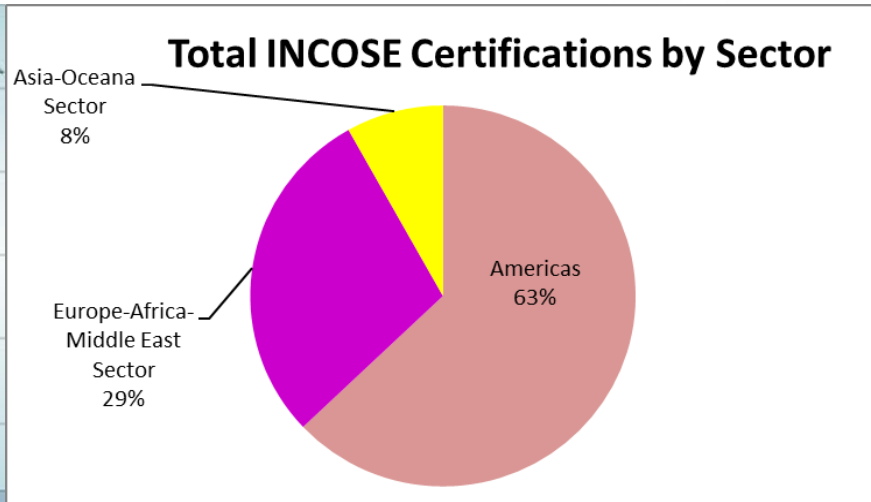

Total SEPs since 2004

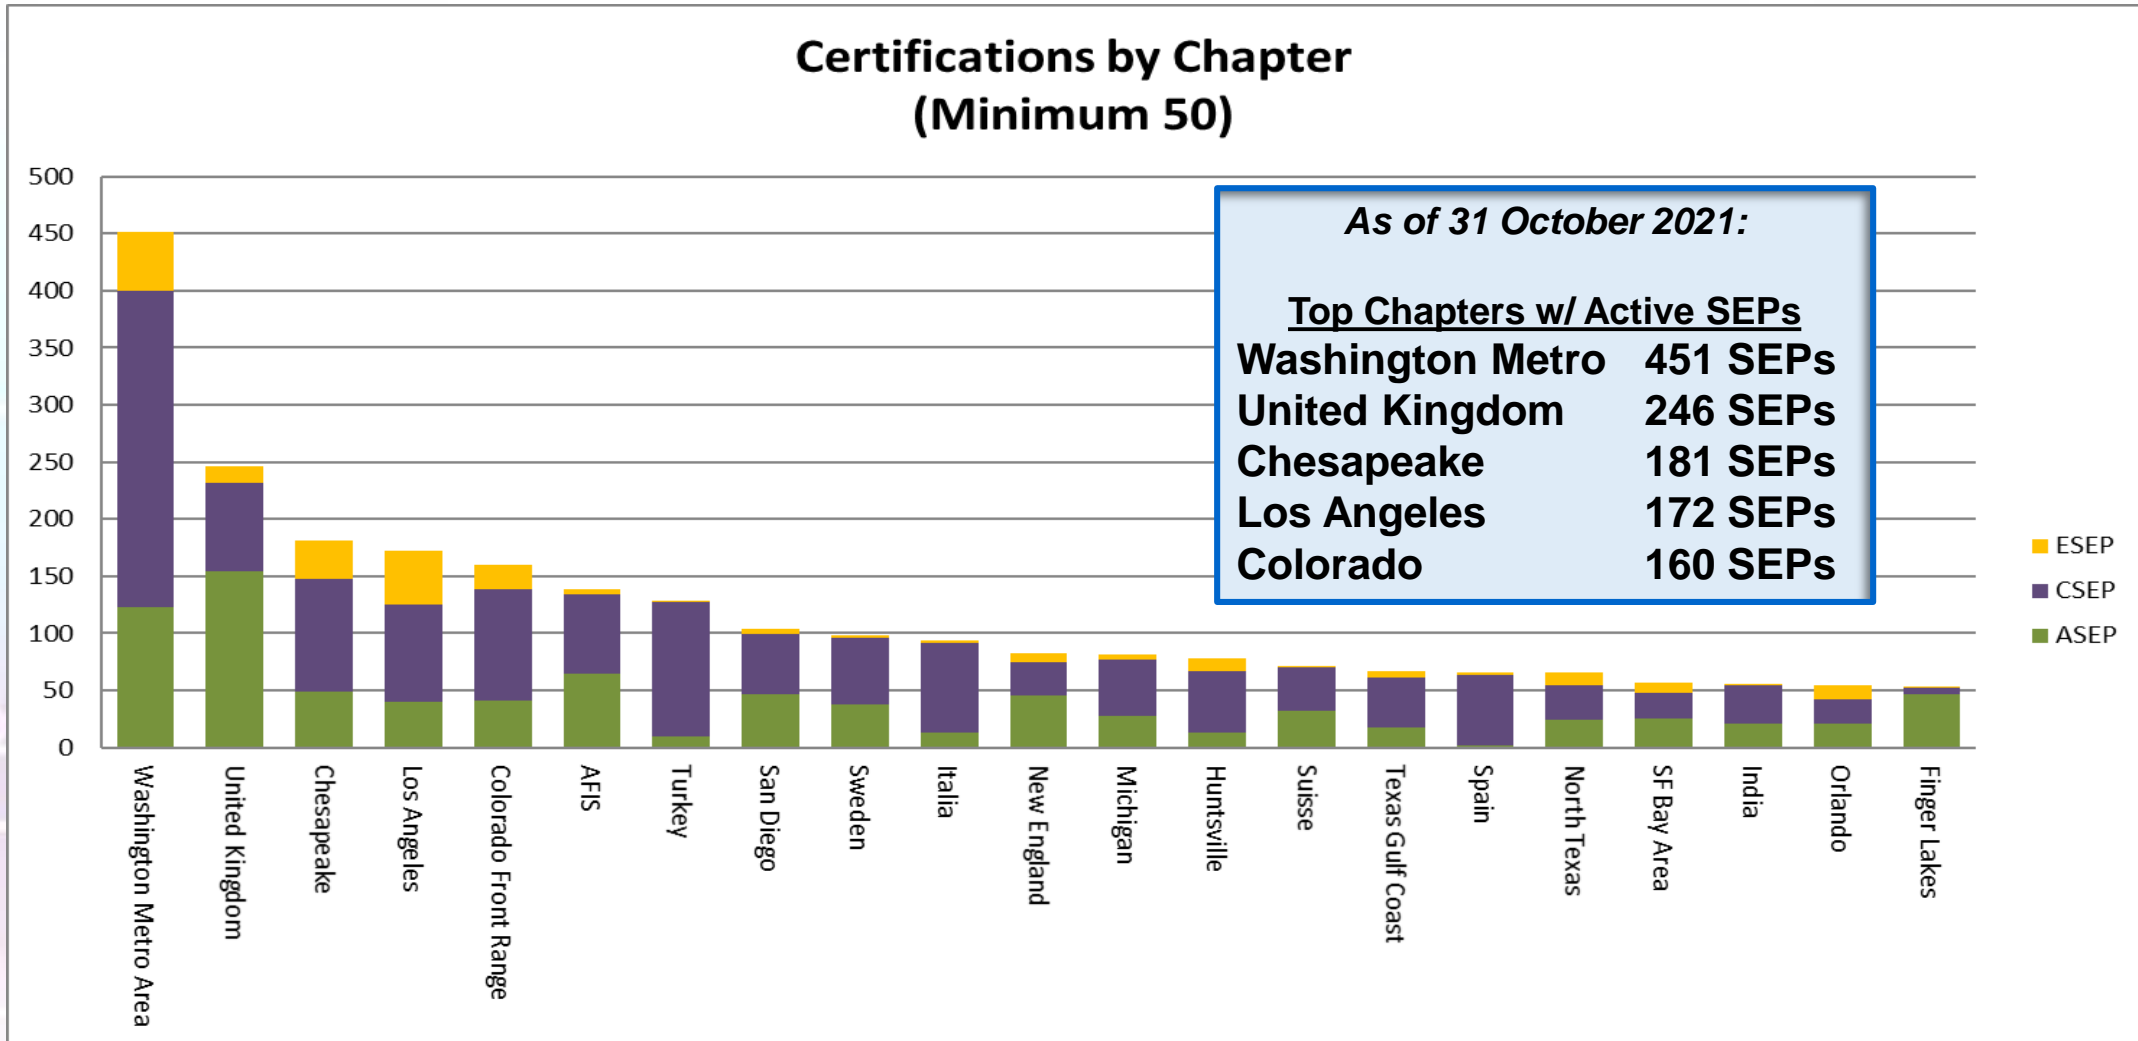

SEPs by Sector

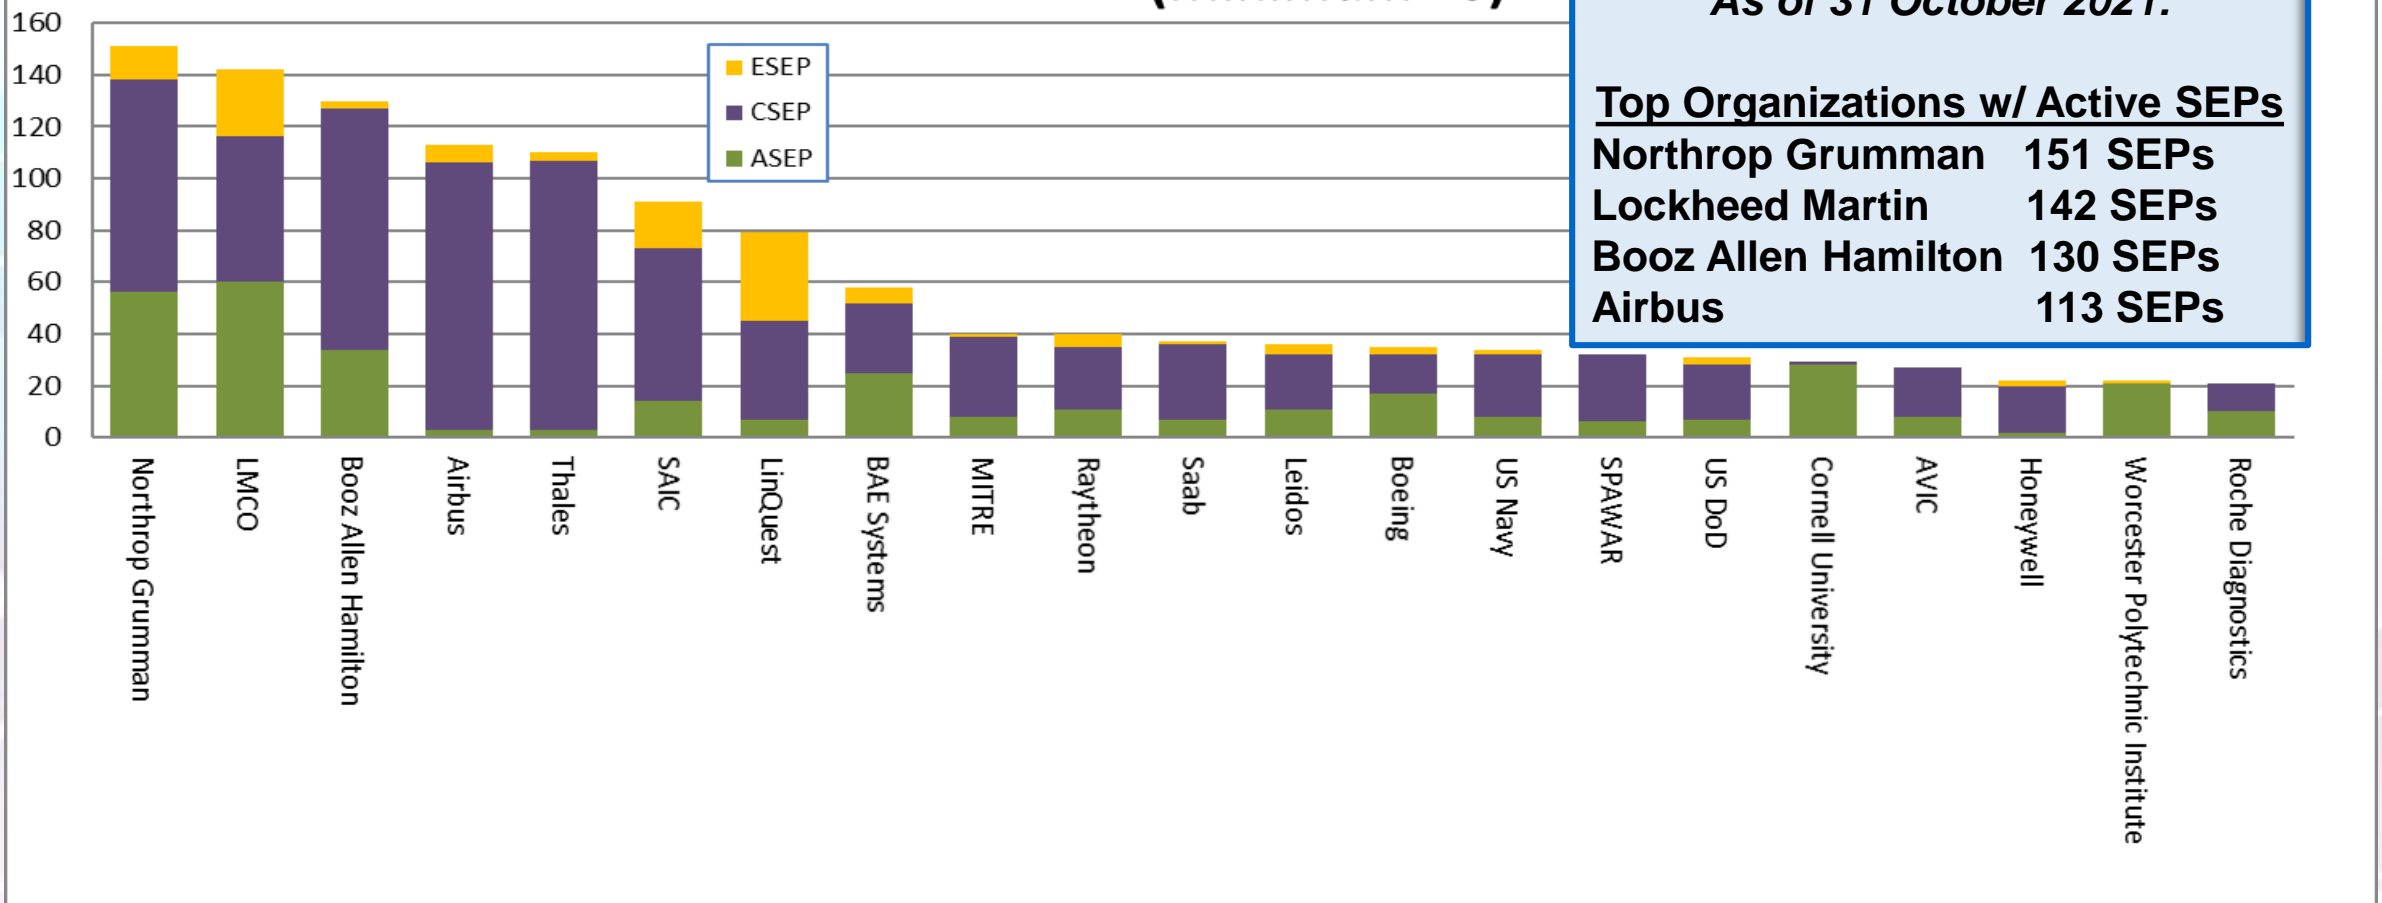

SEPs by Chapter

SEPs by Organization

Certifications by Organizations (Minimum 20)

2022 Changes to Come

- Online application for certification replacing PDFs
- Online PDU logs
- Updated PDU requirements to better align with competency
- New interns and new projects
 - Data analysis – graduate research projects welcomed
 - Will continue the SEPtember blog posts
- Preparing for release of INCOSE Handbook 5th Edition (2023)
